

Shooting Ranges and Bullet Traps

# Savage Range Systems Bullet Traps

Shoot Houses and Target Systems

When it comes to bullet traps there is no better solution than Savage Range Systems. Based on the patented Deceleration Chamber, invented in 1991 by Ron Coburn, they are the most technologically advanced and safest bullet traps available today.

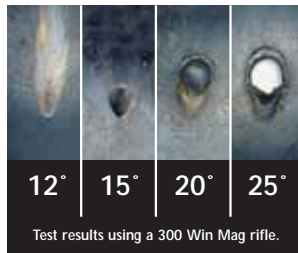

The Check-It Series bullet traps are designed as firearms "clearing stations," to ensure that no live ammunition is present before storing or cleaning a firearm.

Savage Range Systems Gunsmith Series of bullet traps is designed for gun manufacturers, gunsmiths and others needing the strongest and safest feed and function testing equipment.

The Boxtrap Series bullet traps are designed for ballistics labs, manufacturers and military facilities that are serious about eliminating environmental health and safety problems. Boxtraps are available in 24", 36" and 48" square openings and use Wet Snail® technology to minimize airborne lead.

The Proof & Function bullet trap also uses Wet Snail® Technology to minimize airborne lead. Patented low angle entrance ramps deflect the bullet into the deceleration chamber where the bullet revolves, loses energy, then drops into a collection tray. Ideal for firearms, ammunition, and accessory manufacturers, it creates a clean, safe environment for employees and lowers maintenance costs. Great for manufacturers who are serious about eliminating an environmental health and safety problem.

When you need the best specimen for microscopic comparison, the Forensic Buddy™ has no equal. The specially engineered, patented bullet trap is designed to absorb the energy of a bullet, while the bullet's integrity remains intact. Whether used in the lab or as a portable unit, the unique ballistic media carefully collects a specimen, resulting in a clean, accurate view of Land and Groove impressions.

12° 15° 20° 25°

Test results using a 300 Win Mag rifle.

At 12°, steel deflection ramps are nearly impenetrable, providing maximum performance and longevity.

Model	Name	Dimensions (L x W x H)	Trap Opening	Weight	Recommended Applications	Max. Rating (at muzzle)	Lead Time	Price
<b>Check-It Series:</b>								
Mini	Mini Check-It	13" x 4" x 15"	2.5" Diameter	33 lbs.	Safely captures errant discharges	1,400 FPE	2-4 Weeks	\$ 295
CH	Tabletop Check-It	24" x 7" x 21"	3" Diameter	85 lbs.	Safely captures errant discharges	3,000 FPE	2-4 Weeks	\$ 845
FS	Freestanding Check-It	19" x 10" x 27" (8" x 16" Base)	3" Diameter	95 lbs.	Safely captures errant discharges	3,000 FPE	2-4 Weeks	\$ 650
<b>Gunsmith Series:</b>								
GT	Tabletop Gunsmith	27" x 9" x 27"	3" Diameter	160 lbs.	Low volume feed and function testing	4,100 FPE	2-4 Weeks	\$ 1,495
GD	Gunsmith	47" x 18" x 54"	4" Diameter	470 lbs.	Moderate to high volume feed and function testing	8,100 FPE	4-6 Weeks	\$ 4,495
GHD	Heavy Duty Gunsmith	47" x 18" x 54"	4" Diameter	750 lbs.	High volume feed and function testing	13,000 FPE	4-6 Weeks	\$ 7,595
<b>Specialty Bullet Traps:</b>								
R24	24" Boxtrap	86" x 24" x 67"	24" Square	1,200 lbs.	Velocity, accuracy, feed and function testing	8,100 FPE	6-8 Weeks	\$ 15,495
R36	36" Boxtrap	113" x 36" x 73"	36" Square	1,800 lbs.	Velocity, accuracy, feed and function testing	8,100 FPE	6-8 Weeks	\$ 20,495
R48	48" Boxtrap	141" x 48" x 79"	48" Square	2,720 lbs.	Velocity, accuracy, feed and function testing	8,100 FPE	6-8 Weeks	\$ 25,995
PF13000	Proof & Function	76" x 27" x 58"	6" Diameter	1,600 lbs.	High volume proof and function testing	13,000 FPE/ .50 BMG	6-8 Weeks	\$ 15,995
<b>Forensic Series:</b>								
FB	Forensic Buddy™ Bullet trap	34" x 10" x 14"	3" Diameter	60 lbs.	Bullet recovery for ballistic comparison with clear Lexan® shell catcher	1,300 FPE - use w/handguns only	4-6 Weeks	\$ 2,995

No steel core, ceramic tip or armor piercing ammunition. Traps rated for .50 BMG can accept all M33 ball ammunition. No automatic fire. Custom units are available upon request. Prices are subject to change without notice. Prices are FOB Factory. Sizes and weights are approximate. Domestic pricing. As a part of Savage Range Systems, Inc. commitment to quality, we reserve the right to change materials and/or specifications without notice.
